The interactive sessions were very beautifully done. The weekly links and the videos were recorded in such a way that the students could easily understand the concepts. We completed another academic year successfully and you made it all possible.

Alhamdhulillah. All teachers are very good. They are so creative in making kids to talk. They taught the kids not only the syllabus but out of syllabus too. Other biggest thing that I liked about the school is the way they conducted the online classes only for 2 kids since February 1st, I appreciate the management for providing the flexibility to choose between online and offline classes. May the Almighty shower his blessings on the teachers and management on this good institution.

Jazak allah khair to all the teachers for giving their support and love to students in this pandemic time. Though it was difficult for the teachers to teach classes in batch wise to all students, they always conducted classes in a joyful and patient manner. All the teachers made videos of the lesson in a way that students could know about the concept from those videos. Conducting assessments in class made kids learn all the chapters very well. The way teachers schedule revision before exams was excellent that made kids ready for it. Arabic and Tahfeedh were also conducted and taught very well. May Allah reward you all for your efforts? Aameen.

Alhamdulillah!! The efforts taken by teachers were good. They made the sessions very interesting for kids and teachers were always ready to clarify our doubts irrespective of the time. And the class teacher encouraged the kids every week with performer of the week; it was an encouraging factor even for parents. Each teacher had a different technique to pull kids concentration because online is not easy for both parents and teachers. But it was done very well by the teachers.

Alhamdulillah...I just wish to personally appreciate the excellent mode of teaching online... way of keeping the atmosphere active was fantastic. I should specially mention about the extra efforts taken for slow learners by offering special classes. Overall it was good. Above all the video links are superb and clear and it made the students to enhance their understanding. My request is to keep on sending these videos even though classes resume to offline mode and very specially, I should mention the quotes and information sent along with the links were excellent & educative.

Excellent training and follow ups by the teachers. My child had the fear of completing the class work but the teachers made it easy just like attending the offline School. There were absolutely no issues with online classes. Time tables, links were shared much prior and it was well organized to plan my day as well. Friend's interaction also was done at times. My child is waiting to meet all the teachers and friends. My heartfelt thanks to all dear teachers for organizing and handling the online classes so well and promptly answering parent queries and concerns.

It is really appreciable the way teachers were giving their best to the students. Even in tough days every teacher was taking great initiative to make the lessons interesting and meaningful. Children were able to utilize their time in a very fruitful and positive manner. Various videos, voice messages, worksheets etc., have made the concept clear. The best thing is the way teachers motivated and appreciated the responses of the students is highly encouraging. Alhamdulillah. We are blessed to have a wonderful ustadh and teachers for our daughter.
