

Asslaamualaikum Warahmatullahi Wabarakatahu.

This is a feedback to the Unity Public School, My son Muhammad Zakariya Ibrahim Admission No:6624 was part of this school from past two academic years 2020 to 2022. Qadr Allah we had to leave the school as we relocated from Chennai to Hyderabad.

More than a feedback this is a Thank You note to the school for the two beautiful years they have given in our life in spite of the Covid Lock Down.

My child was admitted to the school only because I was studying under Shameem Ustaaz in the Words Arabic academy program, and I was so convinced that I want my son to study in this school only, As Ustaaz is a Fantastic teacher who can empower even the most slowest of the student. May Allah Bless him abundantly. The school can never have a replacement of Ustaaz and you should never let him go.

My decision was right, the staff and the class teacher (Sheerin Ma'am) did not disappoint me.

Its not just the Arabic department which is lead by a fantastic Ustaaz(Shameem), but the rest of the academic department is also comparatively competent.

Jazakallahu Khairan Sheerin Ma'am, What a great teacher, amazing confidence and creativity. Alhamdulillah,the positive side of this lockdown was it gave opportunity to parent to learn their basics from Sheerin Ma'am.

With her creative techniques and confidence she did not miss to teach the children well but also ensured that the parents also learnt. I would say, Unity school In Shaa Allah will get double rewards for teaching both students and parents. Aameen.

When my child had to appear for the entrance test in his new school, I was scared and was not sure about how he would perform as he has never been to school before, but by then Alhamdulillah, Sheerin Ma'am and rest of his teachers prepared him well with regular online classes and activities.

Alhamdulillah. What a beautiful time we had in these years & a memory to cherish. It was possible only because of the hard work of the teacher, as I also know of the horrible experiences other parents had from other schools during this lockdown.

I would also Thank the management who wisely decided to get the children back to school for last two months, it really helped them experience what is school and how to be independent before they take off to their long journey of "School Life".

May Allah bless Unity Public School abundantly and May you have many more branches across the city and country. We as a community need such a school which clearly displays and makes people experience the inclusiveness which Islam propagates.

Jazakallau Khairan,
Mother of Muhammad Zakariya Ibrahim.
